

Transported Embryo Service Package 2018

Use of Twemlows Stud Farm Recipient Mare

£2,300 + VAT

An inclusive cost covering synchronisation of recipient mares, transfer of embryo into recipient mare and all related costs for scanning, drugs, after care post transfer and the in-foal fee (IFF). All recipient mares will have a 14, 28 and 42 day pregnancy scan and are not allowed to be collected prior to this final date. This charge is not applicable until recipient reaches 42 days pregnancy and is scanned in foal. Post 42 days of pregnancy, all charges relating to the recipient mare will be charged to the embryo owner on a monthly basis as per our terms and conditions. All fees must be paid as per our terms and conditions (*see overleaf*).

A fetal sex scan is available at day 58-65 of pregnancy on request: £56 + VAT

Using Own Recipient Mare

£700 + VAT

An inclusive cost covering transfer of embryo into your recipient mare, drugs after care post transfer and the in-foal fee (IFF). All fees must be paid as per our terms and conditions (*see overleaf*)

Should you not obtain an embryo the synchronisation fee of £250 (+ VAT) will be applicable.

Mare owners who send a third party to collect their mare must make arrangements to pay in advance of collection.

A Recipient Hire Request Form should be completed and submitted to the stud for both Twemlows Stud Farm recipients and your own prior to breeding the donor mare to allow synchronisation of recipients.

The stud may send information of its services out via SMS/post/email in the future, please tick here if you would like to receive this

R L MATSON & SON TRADING AS
TWEMLOWS STUD FARM EQUINE REPRODUCTION CENTRE ('THE STUD')

GENERAL TERMS & CONDITIONS 2018

1. Artificial Insemination (AI), Embryo Transfer (ET) & Foaling: Mares taken at livery for AI/ET with Fresh, Chilled or Frozen semen and for foaling. Fresh from resident/walk in stallions, chilled from UK/Europe and frozen from worldwide. The best arrival time for mares is just before they are due to come in season. Their follicular development will then be constantly monitored to obtain the optimum timing for insemination. It is Stud policy to scan all mares.

2. Equine Viral Arteritis (EVA): All liveried mares are required to be blood tested for EVA within the 28 days before arrival at Stud. Copy of blood result to be sent to 'the stud' by post, email or fax in advance of the mare arriving.

3. Strangles (Streptococcus Equi): All liveried mares are required to be blood tested for Strangles within the 28 days before arrival at Stud. Blood sample should be sent to the Animal Health Trust in Newmarket. Copy of blood result to be sent to 'the stud' by post, email or fax in advance of the mare arriving. Mares that have been vaccinated against strangles will require a guttural pouch washout prior to arrival at stud.

4. Equine Influenza/Tetanus & Herpes: It is highly recommended that all mares are up to date with vaccinations.

5. Mare Booking Form: All owners/agents are required to fill in and sign 'the stud' form when they bring the mare to stud. If the mare is sent with a third party the form must be completed and signed before the mare arrives.

6. Mare Passports: It is a legal requirement that mares are accompanied to the stud with their passport. For horses born after 1st July 2009 regulations require horse passports to be linked to a Microchip Identification; 'the stud' offers a microchipping service. If Section 9 of the passport is not signed, we reserve the right to sign this section if drugs are administered which require this to be done.

7. In Foal Fee: For all mares leaving the stud scanned in foal to fresh, chilled or frozen semen. This in foal fee includes insemination costs and all the handling associated with the veterinary work. If a mare leaves before her pregnancy scan it will be assumed that she is in foal and the fee will be payable before leaving the stud. If subsequently she is found to be not in foal before October 1st and confirmed by a vet's certificate, the 'in foal fee' will be returned.

8. Payment. All fees must be paid before the mare leaves the stud. We reserve the right to charge a deposit at the time of the mare's arrival, which will be deducted off the mare's final invoice. Usually invoices will be raised on a calendar month basis and must be settled by the 15th of the following month unless the mare leaves prior to that date, in which case payment must be made prior to departure. "Fees" includes livery, veterinary work and other costs but not stallion fees. Mare owners who send a third party to collect their mare must make arrangements to pay in advance of collection. VAT is charged on all accounts.. **Mares will not be allowed to leave before payment is made in full.** Interest will be charged on outstanding amounts from the due date until the actual date of payment (as well as before judgement) at a rate of 4% per annum over base rate of Nat West Bank plc from time to time in force which shall accrue on a daily basis. Any invoice outstanding will be referred to a debt collecting company and will be subject to a surcharge to cover the costs incurred. This surcharge together with all other charges and legal fees incurred will be the responsibility of the customer and will be legally enforceable.

9. Legal title to any embryo or foal resulting from an insemination or embryo transfer undertaken by Twemlows Stud Farm shall remain the sole property of R. L. Matson & Son unless and until all outstanding fees (together with interest if applicable) have been paid in full and cleared through our bank account.

10. Stallion Stud Fees: The mare owner to pay the Stallion owner prior to the mare being artificially inseminated.

11. Additional Feed Requirements: The Stud reserves the right to raise livery charges to accommodate additional feed due to an individual mares requirements or adverse weather conditions.

12. Hind Shoes & Farrier: Please ensure mares arrive at stud without hind shoes (an exception is made for mares being housed individually at the appropriate rate). Mares and foals will have their feet trimmed when necessary and any costs charged to the owner's account. Any specific shoeing requirements must be notified to the Stud when the mare is booked in.

13. Worming: Mares and foals will be wormed regularly and the owner charged accordingly. Faeces samples will be taken if deemed necessary.

14. Veterinary: Assistance will be called in when deemed necessary by the Stud and the work will be carried out by the Stud's resident vet or by the supporting practice Fyrnwy Equine Clinics, and all costs will be chargeable to the owner. All vaccinations/blood tests/swabs carried out by the Stud are chargeable to the owners.

15. Insurance: The Stud accepts no responsibility for visiting mares and foals and does not carry insurance cover; it is the owner's responsibility to provide their own insurance cover. If your mare is covered for colic and caesarean section, in case of emergency, please notify The Stud.

16. Mares and foals whilst at Twemlows Stud Farm will receive every possible care, attention and supervision, but the Stud accepts no responsibility whatsoever for accident, theft or disease, nor does the Stud give any express or implied guarantee of success.

17. All mares are AI / ET/ OPU / foaled at their owner's risk and the Stud is not to be liable for any damages or compensation in respect of any injury or damage howsoever caused to any mare/foal, including (but not limited to) that caused through AI / ET/ OPU / foaling.

18. Owners must accept that while their horse is at Twemlows Stud Farm it is at their risk - no responsibility for the mare and foal can be accepted by the Stud and all liability claims, damages, costs, loss and expense of any kind whatsoever are hereby expressly excluded.

19. The Stud is not responsible for semen supplied which is: incorrectly labelled, arrives with incorrect paper work or in an unsuitable condition upon arrival. Similarly the Stud is not responsible for the failure of semen to arrive on time.

20. Frozen semen stored at the Stud on behalf of stallion and mare owners is done so at their own risk and they are responsible for insurance of the semen. We reserve the right to charge for the storage of any frozen semen if it is held over from one stud season to the next.

21. The Stud reserves the right to refuse entry to the stud to any mare or foal in the event that any of these conditions are not complied with or where they consider that mare or foal to be an unacceptable health and safety risk or for any such reason.
