Post Code:.....E mail:

Tel: Mobile:.....

Other additional information you wish to give?

Items left at Stud, i.e:

The Stud has its own resident veterinary surgeon. In addition the Fyrnwy Equine Clinic is the retained practice; any work carried out by them will be invoiced to the owner separately and must be settled promptly. **Unless agreed, no tack, head collars or other equipment belonging to the owners is to be left with the horse at Twemlows Stud Farm.**

I have read and understood the 'General Terms & Conditions 2019' (see overleaf) and agree to them. I agree to pay all accounts, in full **prior** to the removal of the animal.

It may be necessary to pass your details on to our retained veterinary practice/equine dentist, please tick here if you are happy for us to do so

The Stud may send out information about its services via SMS/email/post, please tick here if you wish to receive this information

Signed: (Owner/Agent)

Date:.....2020

**R L MATSON & SON TRADING AS
TWEMLOWS STUD FARM EQUINE REPRODUCTION CENTRE ('THE STUD')**

GENERAL TERMS & CONDITIONS 2020

1. **Equine Viral Arteritis (EVA):** All liveried horses are required to be blood tested for EVA within the 28 days before arrival at Stud. Copy of blood result to be sent to 'the stud' by post, email or fax in advance of the horse arriving.
2. **Strangles (Streptococcus Equi):** All liveried horses are required to be blood tested for Strangles within the 28 days before arrival at Stud. Blood sample should be sent to the Animal Health Trust in Newmarket. Copy of blood result to be sent to 'the stud' by post, email or fax in advance of the horse arriving. Animals that have been vaccinated against strangles will require a guttural pouch washout prior to arrival at stud.
3. **Equine Influenza/Tetanus:** All horses to have had a six month booster flu/tet vaccination before coming to stud or if not vaccinated must have had the primary flu/tet vaccination not less than 2 weeks before arrival at stud.
4. **Vaccinations:** All young stock will be vaccinated against influenza and tetanus whilst at the stud, which the owner is obliged to pay for. Should the stud feel the need to vaccinate the young stock against any other disease (e.g. Herpes, Lawsonia) you will be contacted for permission and will be responsible for the cost of the vaccine.
5. **Booking Form:** All owners/agents are required to fill in and sign 'the stud' form when they bring the horse to stud. If the horse is sent with a third party the form must be completed and signed before the horse arrives.
6. **Passports:** It is a legal requirement that horses are accompanied to the stud with their passport. For horses born after 1st July 2009 regulations require horse passports to be linked to a Microchip Identification; 'the stud' offers a passporting and microchipping service. If Section 9 of the passport is not signed, we reserve the right to sign this section if drugs are administered which require this to be done.
7. **Payment.** All fees must be paid before the horse leaves the stud. We reserve the right to charge a deposit at the time of the horse's arrival, which will be deducted off the horses **final invoice**. Generally invoices will be raised on a calendar month basis and must be settled by the 15th of the following month unless the horse leaves prior to that date, in which case payment must be made prior to departure. "Fees" includes livery, veterinary work and other costs but not stallion fees. Owners who send a third party to collect their horse must make arrangements to pay in advance of collection. VAT is charged on all accounts. Payment may be made in cash or by debit or credit card or by bank transfer. Interest will be charged on outstanding amounts from the due date until the actual date of payment (as well as before judgement) at a rate of 4% per annum over base rate of NatWest Bank plc from time to time in force which shall accrue on a daily basis. Any invoice outstanding will be referred to a debt collecting company and will be subject to a surcharge to cover the costs incurred. This surcharge together with all other charges and legal fees incurred will be the responsibility of the owner and will be legally enforceable. Legal title to any embryo or foal resulting from an insemination or embryo transfer undertaken by Twemlows Stud Farm shall remain the sole property of R L Matson & Son t/a Twemlows Stud Farm until all outstanding fees together with interest if applicable, have been paid in full and cleared through the bank. **Horses will not be allowed to leave before payment is made in full.**
8. **Additional Feed Requirements:** The Stud reserves the right to raise livery charges to accommodate additional feed due to an individual animal's requirements or adverse weather conditions.
9. **Farrier:** Your horse will have their feet trimmed when necessary and any costs charged to the owner's account.
10. **Worming:** All horses will be wormed regularly and the owner charged accordingly. Faeces samples will be taken if deemed necessary.
11. **Veterinary:** Assistance will be called in when deemed necessary by the Stud and the work will be carried out by the Stud's resident vet or by the supporting practice Fyrnwy Equine Clinics, and all costs will be charged to the owner. All vaccinations/blood tests/swabs carried out by the Stud are chargeable to the owners.
12. **Insurance:** The Stud accepts no responsibility for visiting mares, foals and young stock and does not carry insurance cover; it is the owner's responsibility to provide their own insurance cover.
13. Horses staying at Twemlows Stud Farm will receive every possible care, attention and supervision, but the Stud accepts no responsibility whatsoever for accident, theft or disease, nor does the Stud give any express or implied guarantee of success.
14. Owners must accept that while their horse is at Twemlows Stud Farm it is at their risk - no responsibility for the horse can be accepted by the Stud and all liability claims, damages, costs, loss and expense of any kind whatsoever are hereby expressly excluded.
15. The Stud reserves the right to refuse entry to the stud to horses in the event that any of these conditions are not complied with or where they consider that animal to be an unacceptable health and safety risk or for any such reason.
